CURRENT POSITION

Assistant Researcher for the National Scientific and Technical Research Council (CONICET) at the Institute of Ecology, Genetics and Evolution of Buenos Aires – University of Buenos Aires, Argentina.

Field of Research: Basic and applied evolutionary biology of insects. I investigate mating system evolution in *Drosophila* and study the genetics of sperm competition and sexual conflict. Also, I am working on the development of innovative approaches for insect population control by genetically engineering seminal proteins.

EDUCATION

2009 – 2014. PhD in Biology (CONICET scholarship). University of Buenos Aires, Argentina. Adviser: Dr. Esteban Hasson.

2001 – 2009. Master of Science in Biological Sciences – School of Sciences. University of Buenos Aires, Argentina.

1994 – 2000. High-school degree – Chemical Technician. Ingeniero Huergo Technical School, Buenos Aires, Argentina.

POSTDOCTORAL FELLOWSHIPS

2018. Using δ -endotoxins to generate transgenic toxic ejaculates as a novel control strategy against target insect females (Visiting Researcher, CONICET grant). Department of Entomology, University of Arizona, US.

2015 – 2016. Genomic Evolutionary Biology in *Drosophila* (CONACyT scholarship). Langebio-Cinvestav, Mexico. Director: Dra. T.A. Markow.

2014 – 2015. Evolution of seminal proteins in *Drosophila* (CONICET scholarship). University of Buenos Aires, Argentina. Director: Dr. Esteban Hasson.

RESEARCHING

UNPUBLISHED WORK

Hurtado J. Revale S., Almeida F., Bennardo L., Weil M., Moreyra N. & Hasson E. **Evolution of seminal proteins in the *Drosophila buzzatii* species.** In preparation.

HONORS AND AWARDS

2020 – 2021. Grant: *Innovation Venture Investment Program - University of Arizona*. Inducible toxic ejaculate in *Drosophila suzukii*: An innovative approach for insect population control.

2018 – 2020. Grant (PICT 4113/2016): *Young researcher program - Agencia Nacional de Promoción Científica y Técnica (ANPCyT)*. New genes as drivers of phenotypic evolution in *Drosophila*.

2017 – 2018. Travel costs grant to conduct a collaborative project at the University of Arizona, US - National Research Council (CONICET). Using δ-endotoxins to generate transgenic toxic ejaculates as a novel control strategy against target insect females.

2014 – 2015. Postdoctoral fellowship from the National Research Council (CONICET).

2009 – 2014. Doctoral fellowship from the National Research Council (CONICET).

2008. Scholarship for outstanding undergraduates. University of Buenos Aires.

2007 – 2008. Scholarship for outstanding undergraduates promoting research initiation. University of Buenos Aires.

2007. Scholarship for outstanding undergraduates promoting academic international exchange. Autonomous University of Madrid, Spain.

TEACHING EXPERIENCE

2020 – present. Teaching assistant at the Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires. Course: Genetics I.

2019 December. Main teacher of the postgraduate workshop 'R basis in Biology' at the Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires.

2017 – 2018. Head of practical work at the Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires. Course: General Ecology.

2018 September. Main teacher of the postgraduate workshop 'R basis in Biology' at the University of Río Negro. Argentina.

2017 October. Main teacher of the postgraduate workshop 'R basis in Biology' at the Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires.

2011 – 2014. Teaching assistant at the Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires. Course: Genetics I.

2009 – 2010. Teaching assistant at the Department of Physiology, Molecular and Cell Biology, School of Science, University of Buenos Aires. Courses: Genetics I and Introduction to Cell and Molecular Biology.

2008 – 2009. Science lab teacher at Toratenu Educational Centre, Primary School, Buenos Aires.

2006 – 2007. Teaching assistant at the Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires. Courses: Genetics I and General Ecology.

2005 – 2008. Teaching assistant at the Department of Physiology, Molecular and Cell Biology, School of Science, University of Buenos Aires. Course: Introduction to Cell and Molecular Biology.

MENTORING EXPERIENCE

2020 – present. Undergraduate student Martina Weil (Biology). Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires.

2019 – present. Doctoral student Johnma Rondon (Evolutionary Genetics). Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires.

2018 – present. Doctoral student Lautaro Bennardo (Evolutionary Genetics). Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires.

2017 – 2019. Undergraduate student Rocío Rodriguez (Biology). Favaloro University. Argentina.

2017 – 2018. Undergraduate student Lautaro Bennardo (Biology). Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires.

2016 – 2017. Undergraduate student Lucía Fernandez Goya (Biology). Department of Ecology, Genetics and Evolution, School of Science, University of Buenos Aires.

TECHNICIAN EXPERIENCE

2016 February – April. Technical adviser at Increa SRL. Buenos Aires, Argentina.

2003 – 2004. Chemical and lab technician at the National Institute of Parasitology, Ministry of Health, Buenos Aires, Argentina.

2004 February. Field assistant at the Ecology of Desert Communities Research Group. University of Buenos Aires.

2001 – 2003. Field assistant at the National Museum of Natural Sciences Bernardino Rivadavia. Buenos Aires, Argentina.

PUBLIC ENGAGEMENT

2017 August – November. Project director and adviser of high school students (at the Department of Ecology, Genetics and Evolution) under the 'Didactic Experiences Program'. School of Science, University of Buenos Aires.

2016 (and 2014) November. Main teacher of the open workshop 'Introduction to R language: from twitter to papers', 2nd (and 1st) edition. School of Science, University of Buenos Aires.

2005 July – November. Trainer of high school students (at the Department of Ecology, Genetics and Evolution) under the 'Didactic Experiences Program'. School of Science, University of Buenos Aires.

2002 August. School of Science Guide for high school visitors under the 'Biology Week Program'. School of Science, University of Buenos Aires.

LANGUAGES

Spanish. Native speaker.

English. *Oral Proficiency Level (CEFR): C1* (Center for English as a Second Language, University of Arizona, 2017). *First Certificate* (University of Cambridge, 2000).
